VOLUME 14 1990

SUBJECT INDEX

Acquisition, 419
Active avoidance, 23
Adaptation, 523
β-Adrenergic antagonists, 425
Aggression, 85, 253, 491
Agonistic behavior, 403
Alpha-flupenthixol, 9
Amnesia, 295
Amphetamine, 9, 339
Amygdala, 217, 295, 425
Animal depression model, 73, 77, 85
Animal model, 65, 455, 463, 523
Anorexia, 339
Anticonvulsants, 315
Antidepressant drugs, 49, 65, 73, 77, 85
Antipredator defense, 455, 463
Antistress, 529
Anxiety, 455, 463
Anxiety disorders, 365
Anxiolytics, 529
Appetite, 117
Appetitive behaviour, 217
Arginine vasopressin, 109
Atypical neuroleptic, 357
Aversive brain stimulation, 501
Aversive conditioning, 365
Avoidance, 365, 447

Baclofen, 425
Beach, Frank A., 179, 201, 243
Behavior disorders, 253
Behavioral states, 93
Benzodiazepine, 135, 463, 481
Benzodiazepine receptor, 315
Bicuculline, 425
Blood-brain barrier, 169
Body weight, 117, 339
Body weight regulation, 305
Brain damage, 511
Brain development, 389
Brainstem, 207

C57BL/6, 481
Carbohydrates, 125
Catecholamines, 529
Caudate-putamen, 433
Cholinergic system, 295
Climbing behavior, 523
Clomipramine, 65, 69, 73, 85
Clozapine, 357
Cognition, 385
Cognitive deficits, 385
Collateral inhibition, 1
Comparative, 125
Comparative approach, 243
Conditioned analgesia, 481
Conference on Reproductive Behavior, 179
Consolidation, 419
Consummatory behaviour, 217
Continence, 157
Continuous cold-water swim, 1
Convulsions, 491
Coping, 529
Coping strategies, 481
Copulatory behavior, 147
Copulatory reflexes, 207
Corticosteroids, 529
Corticosterone, 535
CRF, 263

DBA/2, 481
Declarative memory, 295
Defecation, 157
Defense reaction, 473
Defensive behavior, 481
Delayed matching procedures, 23
Dependence, 135
Depression, 65, 69, 73, 77, 85, 455
Diabetes mellitus, 385
Diet, 117
Dominance, 455
Dopamine, 9, 217, 433, 481
Dopamine metabolism, 523
Dopamine receptors, 523
Dopaminergic antagonism, 357
Dopaminergic system, 295
Drugs, 253

Electrical stimulation, 433
Electroshock, 491
Elevated plus-maze, 501
Endogenous benzodiazepines, 419
Endogenous depression, 49
Endogenous opioids, 535
β-Endorphin, 425, 481
Energy balance, 263
Epilepsy, 315
Epinephrine, 425
Epithalamus, 295
Escape, 495
Estrogen, 403
Estrous cycle, 403
Estrus, 147
Ethanol, 535
Evolution, 125, 157, 243, 273
Experimental anxiety, 507
Exposure therapy, 365
External ani sphincter, 157
Extrapyramidal side-effects, 357

Fear, 455, 463, 495
Fear acquisition, 365
Fear reduction, 365
Feeding, 9
Feeding behavior, 273, 323
Female, 233
Feminine sexual behavior, 183
Fever, 109
Flight, 473
Flumazenil, 419
Food intake, 117
Food intake regulation, 305
Forebrain, 207
Freezing, 473
Frontal cortex, 481
Fructose, 125

GABA, 425
GABA-A receptor complex, 419
$GABA_A$ receptor, 315
Gastric emptying, 339
Glucagon, 305
Glucose, 125
Glutamate, 481
Gonadal hormones, 23, 207
Gonadectomy, 23
Grooming, 273
Gut peptides, 323

Habituation, 365, 447
Heart rate, 529
Hemivibrissotomy, 433
Hippocampus, 295
Hormonal regulation, 233
Hormones and behavior 243
Horseradish peroxidase, 433
5-HT receptor ligands, 501
5-HT_1, 35
5-HT_2, 35
5-HT_3, 35
Human anxiety, 507
Hyperactivity, 253
Hypoglycemia, 385
Hypothalamus, 109, 295

ICSS, 65
Immune system, 263
Inbred strains, 523
Incentive motivation, 217
Infant's sleep, 93
Infants' states, 93
Infants' waking states, 93
Insulin, 305
Intracranial self-stimulation, 85
Ipsapirone, 529
Islet of Langerhans, 305

Kindling, 511

Learned helplessness, 501
Levator ani, 157
Lipostatic theory, 117
Liver and feeding, 323
Locomotor activity, 69, 535
Logistic model, 473
Lordosis, 233

Malaise, 339
Male and female rats, 23
Male sexual behavior, 109, 217
Masculine sexual behavior, 183
Maternal behavior, 183, 273
Maze learning, 23
Medial preoptic area, 109
Memory, 425, 447, 481
Memory modulation, 419
Menstrual cycle, 403
Mental retardation, 253
Mercury, 169
Mesencephalic tectum, 495
Mesolimbic system, 523
Metabolism, 305
Methylmercury, 169
Midazolam, 495
Morphine, 1, 9, 495

Motor activity, 85
Multisensory, 183
Muscimol, 425

Naloxone, 9, 425, 447
Naltrexone, 491, 535
Neonatal clomipramine, 73
Neonatally administered clomipramine, 77
Neonates, 65, 73, 77, 85
Neural regeneration, 389
Neural transplantation, 389
Neural trauma, 389
Neuroleptic, 357
Neurophysiological mechanisms, 207
Neurotoxicity, 169, 511
Neutral amino acid, 169
NMDA receptor, 481
Nonopioid analgesia, 1
Noradrenergic system, 295
Norepinephrine, 425

Obesity, 263
Olfaction, 183
Opiate receptor binding, 481
Opiates, 9
Opioid analgesia, 1
Opioid and nonopioid mechanisms, 481
Opioids, 491
Ovarian hormones, 403

Pain, 481, 495
Parasites, 273
Parasympathetic system, 305
Paraventricular hypothalamus, 339
Partner preference, 217
Passive avoidance, 23
Pathogens, 273
Pelvic floor, 157
Pentylenetetrazol, 491
Peptides, 323
Periaqueductal gray, 473, 481
Perifornical hypothalamus, 339
Periovulatory period, 403
Phenylpropanolamine (PPA), 339
Phobias, 365
Phylogeny, 243
Picrotoxin, 425
Pilocarpine, 491, 511
Place preference, 217
Postpartum estrus, 147
Preference, 125
Pregnancy, 147
Pregnanes, 315
Preoptic area, 217
Preovulatory period, 403
Primate, 233
Proceptive behavior, 403
Progesterone, 403
Prostaglandins, 109
Psychopathology, 253
Psychopharmacology, 253

Rat, 1, 65, 69, 73, 77, 85, 183, 433, 463
Recuperative behavior, 481
REM sleep, 49, 85
REM sleep abnormalities, 77
REM sleep deprivation, 49
Reproduction, 403
Reproductive behavior, 179, 243
Restraint-stress, 535
Reward, 217
Risk assessment, 455, 463
Rituals, 365
Rodent, 233

Scent-marking behavior, 403
Schedules of reinforcement, 23
Second-order schedules, 217
Seizures, 315
Self-injurious behavior, 253
Sensitization, 365, 523
Septum, 295
Serotonergic system, 295
Serotonin, 35, 507, 529
Serotonin receptors, 35
Sexual behavior, 73, 85, 201, 207, 233, 243, 273
Sexual differentiation, 201
Sexual initiation, 233
Sexual motivation, 233
Sexual receptivity, 403
Sleep-wake states, 93
Social conflict in mice, 481
Social context, 233
Social rank, 233
Somatosensation, 183
Species-typical, 207
Spinal, 207
Spontaneous seizures, 511
State function, 93
State organization, 93
State taxonomy, 93
Stereotyped behavior, 253
Steroids, 315
Stress, 69, 491, 523, 529
Stress-induced analgesia, 481
Stria terminalis, 425
Subordinate, 455
Substance P, 447
Substantia nigra, 433
Sucrose, 125
Superior colliculus, 473
Sympathetic nervous system, 263, 305

Tail-flick test, 1
Taste aversion, 23
Thermogenesis, 263
Thigmotactic scanning, 433
Tolerance, 135, 481
Transport, 169
Trigeminal system, 433
Tuberomammillary nucleus, 433
Turning behavior, 433

22-kHz Ultrasonic cries, 463
Ultrasonic vocalization, 463

Vagus nerve, 323
Ventral septal area, 109
Ventral striatum, 217
Vibrissae, 433
Vigilance, 463

Withdrawal, 135

AUTHOR INDEX
